## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, drawn to Al-Zn alloy with a high Zn level, classified in class 420, subclass 541.
  - II. Claims 6-10, drawn to Al-Mg alloy with high Mg level, classified in class 420, subclass 542.
  - III. Claims 11-13, drawn to Al-Mg-Li alloy, classified in class 420, subclass 543.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are separate and unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects, due to the main alloying ingredient of Zn, Mg, or combination of Mg and Li. It is recognized in the aluminum art that said different groups I, II, and III belong to distinct classes of aluminum alloys, namely, Al-Zn alloys are known as 7xxx, Al-Mg alloys are known as 5xxx, and Al-Li alloys are known as either 8xxx or 5xxx series.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Andrew Rawlins on September 15, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1742

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janelle Combs-Morillo whose telephone number is (571) 272-1240. The examiner can normally be reached on 8:30 am- 6:00 pm.
